## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims in this application is the recitation of a metal rail recited to a support having two confronting and inwardly concave flanges forming transversely inwardly directed faces and a metal rail fixed to a seat captured between the concave flanges and having two outwardly directed faces bearing with prestress outwardly on the inwardly directed faces with friction reducing layers on the faces which is not shown nor is fairly taught by the prior art of record.

Note that Bauer et al. '495 does not disclose the friction layers being on the faces defined as being "formed on inwardly concave flanges, of the rail fixed to a support, and being transversely directed inwardly" or the two outwardly directed faces, on the rail fixed to the seat, and bearing with prestress outwardly on the inwardly directed faces.

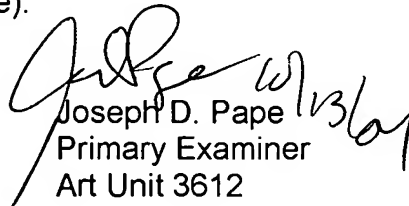

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph D. Pape whose telephone number is (703) 308-3426. The examiner can normally be reached on Tues.-Fri. (6:00-4:30).
